Native Peruvian biodiversity

Algarrobos Organicos is a family business with the purpose of recovering the ancestral knowledge of the dwellers of the Andean, Coastal and Amazonian region in order to grow the best products possible for Peru and for the world. We process and export within organic standards and systems.

We are striving to minimize the food industry impacts on our environment, implementing an eco-efficiency culture throughout our complete chain of value, and being on the education of our partners and consumers.

We support and work with farmer communities in different parts of Peru, benefiting families in rural areas.

Certifications

Our company, with a commitment to ensure compliance with national and international standards, every year renews its quality, environmental and social responsibility certifications. Our strategic partners are the small farming communities, which are certified as organic. These communities are using an internal control system called S.I.C. Our facilities are verified and validated by international organizations

NOW WE ARE
Certified

Corporation

After 18 years, Algarrobos Orgánicos is taking a momentous step forward. After nearly a year of audits and joint work by different areas of our company, we are reaffirming the commitment that has guided us every day since our creation: to work toward a triple impact business, where beyond the economic aspect, the greatest reward is doing our job well.

We are now part of a group of companies that strive for the common good of society: **We are a Certified B Company.** We share this achievement with each of our strategic partners who place their trust in us.

In this way, we are strengthening our path and consolidating our position as a leader in the collection, cultivation, and processing of Peruvian superfoods.

Today, we remain faithful to our purpose, which is and always will be: **“Feeding the world well.”**

WE ARE ALL OVER THE WORLD

Europa - Asia - America - Oceania- Africa

NATIVE FRUITS

MESQUITE

*Sweet and
energizing*

Product development service

Thanks to our market experience, we are able to adapt easily to the needs and demands of our customers, keeping in mind our main focus: The quality.

Algarrobos Organicos can help your company to develop:

- Superfoods blends
- Instant beverages blends
- Funcional shakes
- All kind of fruits/roots/herb in powder, dried or other presentation
- Capsules and tablets

We want to be a partner for our customers, providing a wide range of personalized services in products development with the highest quality standard and food security. In our internal laboratory, we can proceed easily to microbiological analysis, resistant starch, gelatinization index, gluten test, Vitamin C test, proteins loss, among others.

Private label

Positioned brands can start working their presentation with our products directly from Peru. Outsource and minimize the cost of your brand thru our facilities with quality and safety assured. Being 100% organic, our storage is well divided and can assure non cross-contamination, free of any allergens and with appropriated conditions for any product for human consumption.

CAPSULES

Algarrobos Organicos offers premium quality and diversity range of encapsulated Powders such as: Maca Raw & Gelatinized, Camu camu, Graviola, Ginger, Turmeric and more superfoods. The capsules are Gluten Free, Non-GMO and Vegan.

Algarrobos Organicos ofrece polvos encapsulados de alta calidad como: Maca Cruda y Gelatinizada, Camu camu, Graviola, Jengibre, Cúrcuma y más super alimentos. Las capsulas están libres de gluten, no GMO y veganas.
